

## Questionnaire – Project # 5

COMPLETED BY MENTOR, PROF. NOAH J. COWAN

### 10/10 Overall project and progress

- Were you satisfied with the overall technical progress made in the course of the semester? **Outstanding**
- Was the total accomplishment appropriate for the number and level (undergrad/graduate) of students on the project? **Yes -- Erin has nearly completed her PhD and this project really put her over the finish line.**
- Will the results be useful to you in the future? **Yes, without a doubt.**
- Do you see a prospect for patents or publication to result? **Yes, we are going to submit a high-impact publication as a result and additional patent applications.**

### 10/10 Report (which the students should have shared with you)

- Does the project report accurately reflect the scope and accomplishment of the project? **YES**
- Were you given an adequate opportunity to review the report? **YES**
- Does the report and its appendices, together with the web site, provide sufficient information that subsequent groups can make effective use of the project results. **YES**
- In particular, are any project designs or code adequately documented. **YES**

### 10/10 Web site

- Does the web site reflect the scope and accomplishment of the project? **YES**
- Do you wish the web site to remain password protected after May 30? If so, for how long? **YES UNTIL PUBLICATION WHICH SHOULD OCCUR BY JAN 2018.**

### 10/10 Management

- Were the students fully engaged in the project? **YES**
- How often did they meet with you? Was this enough? **WEEKLY, YES SUFFICIENT.**
- Were the “deliverables” and “dependencies” realistic? **YES**
- Was the plan realistic? Were unmet dependencies approached in an effective manner? **SURPRISINGLY SO; ERIN ACHIEVED ALMOST EVERYTHING.**

### Other comments or suggestions

- Do you have any other comments or suggestions, either about the specific project or about the overall structure of the course for next year. **N/A**
